ATHLETIC SITUATION.

The students are doing a good deal of talk now about pure athletes and the acclusion of professionalism from the college team. Incidentally they are kicking hard about the need for an athletic field at the college.

One of the crying needs of Richmond College is the athletic field that, we understood, was to be had last year. Our want last year'dld not harass us so very much, because, after a long time, we persuaded the manager of Broad Street Park to let us practice over there; but this year it is different, for Monday, March 16th, finds the Philadelphia team of the National Lengue practicing on the ground. The consequence to us is that our baseball team is "on the bricks." Did you ask where we are practicing? Well, come out some afternoon and we'll take pleasure in showing you want delightful grounds we have—for coasting. We need a place PORT OF WEST POINT, APRIL 10, 1903.

In conclusion, field day! Let's have a great big one this year—one that will take the shine off all the others held heretofore.

is at Murphy's Hotel, and when asked by a Times-Dispatch reporter yesterday evening what his views were in regard to the appropriation for the Jamestown Exposition said:
"I do not see how the State can afford not to make the appropriation; the Exposition will present an unexampled opportunity for advertising the resources of the State, the direct returns from the investment, looking at it from a purely selfish standpoint, will be profitable, and it is hard to estimate the indirect results. The great coaling stations located at Newport News and Lambert's Point, with thousands of cars being dumped and the vessels of all nations coaling, will of itself be an advertisement worth more than the appropriation. Then, again, the United States have never before had bank clearings at a number of the principal cities for the week ended April 9th with the percentage of increase or decrease as compared with the corresponding week last year. "Tied together by the great lines of railroad Southwest Virginia and Tidewater have a common interest in uniting to make the Exposition a success. The coal and fron interests of our section will be advortised as never before, and its products will be in daily evidence over the greatest piers on the Atlantio seaboard. To refuse the appropriation will be to kill an enterprise with more promise of good to the State than anything which has been projected for a quarter of a century.

"With this appropriation made and the enterprise endorsed by the State the managers can go to the States and the nation with full assurance of success, but should the State refuse now to make the appropriation for the Exposition, which it has created by statute, the management will have to abandon the undertaking which has been so auspiciously commenced and hang their heads in shame," Richmond tobacco market during the nast week. Concerning the condition of the market, Messrs. L. B. Vaughan & Co., of Crenshaw Warehouse, say:

"Small receipts and sales at unchanged quotations, with steady market, were the leading features of this week. We are, as it were, between the acts. The wagon tobacco mostly sold, and too early for package or railread stock. Our trade has been somewhat stirred from the even tenor of our way by the reported purchase by the trust of the T. C. Williams Company, said to be the largest factory in the United States outside of the combination. What effect on this trade can only be surmised. We hate to see these old and honorable landmarks disappear, but we are also very American, and such believers in American competition and pluck that monopoly is impossible. We hear of independent factories starting up all over the country (two here), and all doing well. Let us be satisfied and not cross the river until we get to the bridge." past week. Mr. Ogden Defended South at Union League Club.

DEFEATED RESOLUTIONS

These, Which Were Designed to Stir Up Race Question and Engender Bad Feeling, Had Been introduced at Instance of Wise and Miller.

NEW YORK, April 10.—There is much comment and some newspaper discussion at the Union League Club in this city. Warner Miller and John S. Wise, of Viron Congress to restrict the representation policy of President Rossevelt and, pro-testing against the suffrage provisions of

testing against the suffrage provisions of the South.

Mr. Robert C. Ogden led the opposition to the resolutions. After earnest and protracted debate he succeeded in defeating them.

Hon. Cornelius N. Bliss, Secretary of the Interior undor President McKinley, presided at the meeting. Mr. Ogden was supported in the discussion by Mr. White-lock and Mr. Clarence W. Bowen, of New York.

Mr. Ogden stated that he had been a lifelong Republican, having voted for the Republican candidates from Abraham Lincoln on down. He said that he fully and emphatically accepted the Federal Constitution in all its parts, but that the passage of the resolutions criticising the South could be interpreted as an act of "Northern interference," would work injury to the negro and might disturb the pace of the South and of the country at large, Mr. Ogden's cegent and impassioned defense of, the best forces of the South has called forth very general approval and appreciation in this city.

A post-election argument was started and several blows were struck. The crowd, composed chiefly of Italians, then surged out to the sidewalk where pistols and knives were drawn. When the police and detectives arrived Frank Vinch was found lying unconscious in the street. The others had either scattered or had gone to the floor above the saloon.

Lieutenant Moore took half of his men up the stairway and rapping on the door ordered those inside to open it. He was greeted by a volley of shots, one of which spaced his head and another entered his right arm. Despite this he drew his revolver with his left hand and with the officers battered down the door. As the police entered the lamp which had lighted the place was put out, leaving the room in darkness. Another was procured and more than a dozen men were arrested.
